

# LM 23-2, William Christian

## sLeaM [Laravel Post Training]

### NOTES

```
login template
Member
    username : lm23-2
    password : lm23-2
Admin
    username : admin
    password : admin
```

### Ide

```
bikin steam kw
```

### Database

1. users  
 buat nge track user user nya
2. games  
 buat nge track game game nya
3. transactions  
 buat nge track user punya game apa

### Requirements

- ☒ Using laravel
- ☒ 10 pages
  1. Login Page
  2. Register Page
  3. Games Page (admin)
  4. Add Game Page (admin)

5. Dashboard Page (member)
6. Buy Game Page (member)
7. Library Page (member)
8. Profile Page (member)
9. Edit Profile Page(member)
10. Game Detail Page (member)

☒ Dummy data

| bisa pake seeder tapi saya comment, saya pake dummy data biar keren

☒ Model Layer

☒ View Layer

☒ Controller Layer

☒ CRUD Data

☒ Pagination (Buy Game Page (member), Game Page(admin))

| ui nya agak jelek

☒ Searching (buy game page (member), game page (admin))

☒ validation untuk tiap form

**search g dibikin validation karena biar bisa search gada isi juga**

☒ Middleware untuk tiap page
